New York, Dec. 2/—This was one of the dullest days of the antire year on the ricck exchange. Only two stocks over traded in to an amount of over 10.00—Pushiling and Sugar. The entire stranger group figured in the transactions for only 8,000 shares and General Electric and 7,000 to fits credit. A slight reaction set in about 19:15 o'cless, but the spoulation quickly recovered its tame and by 11 o'clock the market land become firm again. The higher tange of prices was not long maintained and duting the hour preceding adday he figures moved downward. Coward noon the depression grew less amounteed and the market gradually leadied itself. A period of extreme agains on now set in and but few large of moment were made during the subjection two hours. In the last cur the trading was irrevular, but at a close a fairth steady toke prevailed, erreate part of the list, however, evening declines compared with the sing quontitions of Saturday. BUI for there was no appreciation in values. Good, heavy and medium weights sold rather strong but light hogs and com-mon grades of no matter what, were not mon grades of no matter what, were not really turned over at Saturday's prices. The shipping demand was small and as tomorrow will be observed at the packing houses as a holiday the local demand was lighter than it otherwise would have been. New good heavy hogs were offered and while best grades were quoted around 4.70, there was comparatively little business at over 4.55. From 4.406.4.50 bought the bulk of the lots averaging over 350 pounds and 4.15.4.30 were prices most frequently paid for light weights. There were many sales of pigs and light mixed stuff at 3.75.64.50. The close was dull. About 5.000 sheep were on the market.

About 8,000 sheep were on the market. I these about 4,000 were left over from st week. The market was moderately active and anything good sold readily. Sheep were quoted from 1.50@3.50; the bulk selling 2.50@3.35.

Lambs were quoted from 2.25@4 and the majority of sales were 3.25@3.75.

The new building of the company is now practically completed and the placing of the great switchboard is progressing favorably. It will be some time after the first of the year, however, before the removal from the present quarters can take place. The declaration of the dividend, in view of the past recent heavy expenditures, and those about to be made, speaks volumes for the conservative management of the company.

The fear that the foreigners will flood this country with wool and goods, to the exclusion of our own products, no longer pervades the market. The two extreme qualities, very fine and very coarse wools, will be imported as they always have been; the high grade, long-exaple fine wools from Australia, and the market earlier ways from Chins But. coarse carpet grades from China, Russia, Asia and Africa, where land is al-most valueless and labor down to barbarian rates.

at the principal eastern markets are sending out their annual reviews of the year's business. The first yet received is that of Abner Platt & Co., of Chicago, which is as follows:

"The year now drawing to a close has not been unanimously satisfactory to the live stock trade either on the buying or selling side. Supplies of cattle at this market have not been quite as large as for several previous seasons but the quality has been generally poor, considering which, together with some other causes, prices have not ruled as high as in other years. The retaliatory stand taken by Germany in placing restrictions upon American meats and neat animals has undoubtedly had a depressing effect upon prices in this market. Receipts here have been curtailed to some extent by the terminal charge, imposed last June, which diverted a large proportion of Texas cattle into southwestern markets—our receipts of Texans being smaller than for any year since that trade became a factor of this market. Our northwestern range trade fulfilled anticipations of all concerned, barring the fact that toward the middle and close of the season the stock arrived in very poor condition and sold for low prices. The health of cattle in the country has been remarkably good and less has been said of Texas fever than for many seasons in fact, every requisite for comfort and convenience.

Persons desiring a cheap and convenient means of reaching Chicago or the east coast cannot do better than to arrange to make the trip in this fashion.
